The assets are not up for repossession, from a third-party investor, and in the event of a financial collapse by default, of the "Lender" the question of repossession must adhere to trademark laws. Any collection or repossession must go through arbitration with the New Jersey Superior Courts, held in either Newark or Trenton. All claims for third-party repossession are paid by the petitioner, which includes court cost and attorney fees for both parties. The asset is connected to many financial utilities as a digital asset turned into a real-world asset, so breaking up the asset would be virtually impossible.

The purpose of this agreement is to establish the asset known as Mad Comedian On Canvass, with its real-world value in cash incentives, plus the digital landscape. The asset marked MCCM01 is the physical copy of the digital print known as an NFT.

8. **Asset Value:** Mad Comedian on Canvass 01, is worth $133,756 as a physical NFT, with a real-world asset claim with the verified handle on Cash App—with undisclosed amounts, that is connected to asset backed token, with a bitcoin connection that is currently undisclosed, and converted into a real world stablecoin, that has an asset backed security that is unregistered on a private market, with connections to a nonprofit organization.

    This NFT is in the category or being arts and entertainment, whereas the asset in itself is the blockchain of connectivity. Since the asset is an NFT-enabled hybrid RWA-backed stablecoin architecture, in which a unique NFT represents or governs rights associated with an underlying real-world asset, while a fungible stablecoin provides the stable-value layer.
9. **Non-Disclosure Agreement:** The terms in this agreement are to be confidential, and may not be talked about, conversed, used or disclosed to any party without the express written consent from Coaches 101 A NJ Nonprofit Corporation. Any part in possession of this IPSA is subjected to the following or notions mentioned above.
